“As we take this next step, we are in an ideal position to meet the skyrocketing demand from governments and corporations for small satellites in low earth orbit,” said Marc Bell, Co-Founder, Chairman, and CEO of Terran Orbital. “We are industrializing the small satellite industry, mass producing small satellites at a large scale. Additionally, our earth observation constellation will enable us to deliver images of any geography on earth, day and night, through clouds, dust, and other visual obstructions, within minutes. It’s a game changer.”
